Discussion points at AFACCT business meeting:

- Theme for MMATYC Conference.
- Logo competition.
- Future newsletters.
- How you can get involved with MMATYC.

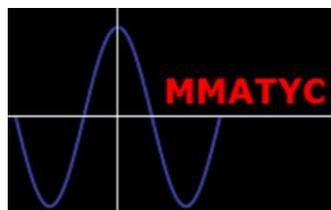

MMATYC Business Meeting to be held at AFACCT 2014

The annual MMATYC business meeting will be held in a double session on Thursday January 9th during Session 3 & 4 at the 2014 AFACCT annual conference hosted by Prince Georges Community College, Largo, MD. Membership is only \$10 and will be collected at the meeting

The **theme** for the 24th AFACCT conference is inspired by what most who teach in community colleges do almost without thinking: we learn from our past mistakes (hopefully few), draw comfort and inspiration from our successes (hopefully, more than just a few), and use these experiences to plan for opportunities that are on the

horizon and emerging surely and rapidly.

The MMATYC meeting will run from 1:50pm until 4:20pm on Thursday 1/9/14. The purpose of the meeting is to provide general information of upcoming events, conferences, and organizational needs. We will announce the date and location of the upcoming MMATYC conference to be held in late May 2014 and share highlights from the 39th AMATYC conference held in Anaheim CA. We will also provide information on how to earn a scholarship to attend the 40th annual AMATYC conference in Nashville TN. on November 13-16 in 2014. Come join us at AFACCT.

Maryland Mathematic Association of Two Year Colleges.

40th AMATYC Annual Conference

Nashville, Tennessee
November 13-16, 2014

Conference Theme: *Mathematics: Music To My Ears*

MMATYC Logo Competition

Do you like to draw? Do you find yourself sketching cool symbols on your scrap paper? Then you may be just the person MMATYC is looking for!

We are looking for a new logo to represent our

organization.

If you have an idea or dabble in graphic design please consider submitting your concept to MMATYC. We are looking for a logo that adequately captures the uniqueness and diversity of

our organization and what we do. All proposals should be submitted to eevans@frederick.edu by February 14th for consideration. Who better knows how to represent us than the people who are a part of us!

40th Annual Conference
Nashville, TN
Nov. 13-16, 2014
Presenter / Presider
Application

MMATYC 2014 to be held at Frederick Community College

One benefit of holding a math conference is the ability to collaborate and share your ideas with colleagues across the state.

We are honored to announce that Frederick Community College will host the 2014 MMATYC conference on May 30th. Information regarding registration, proposals for presentation, theme, and vendors will be announced in the next

newsletter due out in early February.

A theme for the conference will be decided at the 2014 AFACCT business meetings as well as a deadline for submitting proposals. Please check our new website (www.mmatyc.org) for updates regarding conference information, proposal deadlines, and theme for the conference.

Newsletter Suggestions

Got a new idea? Maybe a suggestion on what we could do better? Please let us know. We value your input and want to make this newsletter something that you want and enjoy. Please email any ideas or suggestions on how we can better serve you and your colleagues at eevans@frederick.edu Please include in the subject line "MMATYC newsletter", and thank you!

Call for Adjuncts!!!

One benefit of the MMATYC conference is the opportunity for adjunct professors to attend a low cost high-quality mathematic conference with in the state of Maryland.

It is an invaluable opportunity for professional development and will greatly benefit any adjunct professor and the colleges they work for. We encourage all adjunct professors to attend this

excellent and affordable conference that will be held at Frederick Community College on Friday May 30th.

MMATYC appreciates and values the contributions that our adjunct professors make to our departments and colleges and encourage any adjunct professors to submit a proposal that they feel is relevant to the needs of their colleagues, department, and or college.

Conference theme and proposal submission deadline will be discussed at the upcoming business meeting at the 2014 AFACCT conference held at Prince Georges Community College and advertised in the next newsletter due out in the beginning of February.

More information will be made available at our new website: www.mmatyc.org

AMATYC Traveling Workshops – Great News by Ana Jiménez

As you already know, you can request a Traveling Workshop to provide valuable professional development at your institution on a variety of topics, such as Developmental Mathematics, Teacher Preparation, Statistics, Technology, Inquiry-based Instruction, Math Across the Community College Curriculum

(MAC3), Combinatorics, Group Work and Peer Review. However, if you are looking for professional development on Inquiry-based Teaching, the Discovering the Art of Mathematics Team has funding to facilitate three workshops this year through their NSF grant; which means

there would be no cost to bring their phenomenal expertise on inquiry-based instruction right to your doorstep! For more information visit their website www.artofmathematics.org/about. Visit the Traveling Workshop webpage at www.amatyc.org/tw/index to find out more information about requesting a workshop.
